De stad is weer
helemaal terug,
en beter dan ooit.

Leven. Werken. Spelen. Rijden.

Steeds meer mensen herontdekken de stedelijke lifestyle. En waarom ook niet? Als alles wat je nodig hebt zich binnen loop — of fietsafstand bevindt, maakt dat het leven veel gemakkelijker. Ga maar na: je staat wat later op, want met de fiets ben je zo op school of op je werk. Ontbijt, lunch, avondeten en koffie zijn allemaal binnen handbereik. De supermarkt, de bibliotheek, het postkantoor, de bank — je bent er zo. In de stad is alles gebouwd op menselijke schaal: alles is bereikbaar met twee benen en twee wielen.

De stadsfietsen van Trek, de Trek Urban serie, zijn gemaakt met bruikbaarheid, efficiëntie en stijl in gedachten. Ze vormen een volmaakte metgezel en zijn speciaal ontworpen om het beste te halen uit de nieuwe stedelijke lifestyle.

“Een fiets is een waardevol instrument om de buurt volledig te verkennen. Het brengt gewoon meer dingen binnen handbereik.”

Steven Filmanowicz, Communications Director van het Congress of New Urbanism

Een van de vele dingen die het Congress of New Urbanism tracht te verbeteren is de totstandbrenging en implementatie van duurzame transportnetwerken die leiden tot lagere kosten voor huishoudens, minder gewonden in het verkeer en een lagere uitstoot van broeikasgassen. Onderdeel hiervan is uiteraard stadsplanning met nadruk op vervoer per fiets. Het CNU werkt samen met organisaties als de BFC (Bicycle Friendly Communities) en Bikes Belong (bikesbelong.org) om te helpen bij het lobbyen voor Complete Street-initiatieven. Trek Bicycle ondersteunt de inspanningen van deze organisaties met trots.

De soepeler draaiende stadfiets — Soho.

De droomfiets van de forens. De Soho is speciaal ontworpen voor dagelijkse ritten door de betonnen jungle, van en naar werk, school, of waar je ook naartoe wilt.

2. Weerbestendig Volledig bedekkende meegespoten spatborden.

4. Coole urban essentials Standaard voorzien van een rubberen bufferbescherming op de bovenbuis en een geïsoleerde koffiebeker.

5. Roestbestendig, smeren niet nodig Gates C-Drive carbon composite riemaandrijving is lichter, schoner en stiller dan een ketting. Geen gesmeer, geen gedoe, geen zorgen.

Het geheim van er fitter
uitzien is niet grotere
broeken kopen.

Je leven lang fit.

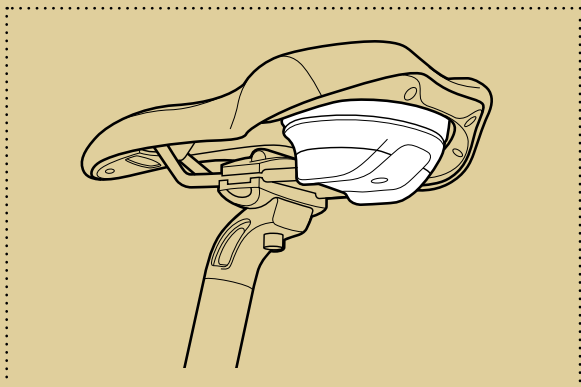

Het is niet zozeer een beweging, maar een manier van leven. Fitness is deel van onze dagelijkse routine. Mensen staan vroeger op om de drukte op de sportschool voor te zijn. Ze laten de lift voor wat hij is en nemen de trap. Ze pakken hun trainingen ook wanneer het weer tegenzit.

Trek FX fietsen zijn de perfecte cross-trainers voor elk moment, met kenmerken als H2 Flex Form™ zadels en het IsoZone™ vibratiedempingssysteem waarmee je langer kunt doorfietsen.

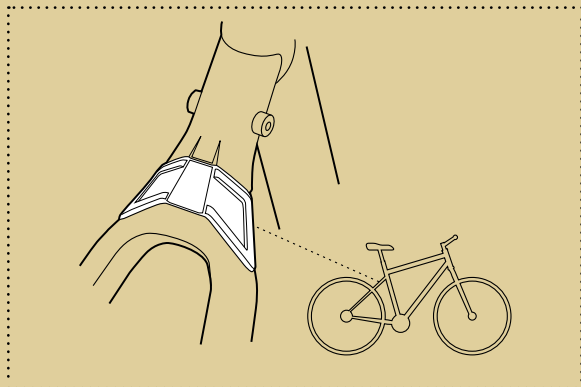

Langer rijden.

1. Bontrager H2 Flex Form™ zadels

Het zadel is opgehangen op een rubberen elastomeerkoppeling zodat het lichtjes heen en weer kan bewegen. Het zadel volgt de natuurlijke pedaalslag van de rijder, waardoor deze minder moe wordt en kan genieten van een comfortabelere rit. Alleen beschikbaar op de 7.5-7.9 FX.

2. IsoZone™ vibratiedempingssysteem

De IsoZone™ technologie (op de 7.6 FX en hoger) geeft meer controle en elimineert vrijwel alle wegtrillingen. Het belangrijkste kantelpunt van het frame wordt geïsoleerd met een revolutionair dempingssysteem, waardoor de trillingen worden gedempt die de rijder het meest voelt (tussen 40 en 50 Hz), en wel minstens tweemaal zo sterk als bij alle andere systemen op de markt.

Veelzijdig: een
verscheidenheid aan
mogelijkheden.

Van serieuze fitnessstraining tot snel naar je werk gaan en alles wat daar tussenin ligt: de Trek FX serie is ontworpen voor jouw manier van leven.

1. **Flex Form™ zadels** die met je meebewegen en die het comfort en het rijden verbeteren.
2. **Comfort-first Ergo Grips** voor een betere grip.
3. **Het IsoZone™ systeem** absorbeert trillingen voor vrijwel de soepelste manier van rijden.
4. **Lightweight Alpha Aluminum frame** om snel en gemakkelijk te kunnen rijden.
5. **Lek-bestendige Bontrager Hard-Case banden** die buitengewoon snel zijn en een toonaangevende bescherming bieden tegen lekke banden.

De zwart/blauwe WSD zadeltas en de Bontrager bidonhouder worden afzonderlijk verkocht.

MT 60™	Mystic 20™	Mystic 16™	Mt. Train™

Hé papa en mamma, weten jullie dat kinderen die naar school fietsen actiever, energiever en meer betrokken zijn? Het concept voor een veilige route naar school (SRTS; Safe Routes to School) is ontstaan in de jaren '70 van de vorige eeuw in Odense in Denemarken. Het heeft een paar jaar geduurd, maar het concept is nu internationaal verspreid en overal in Europa, Australië, Nieuw-Zeeland, Canada en de Verenigde Staten zijn programma's ontwikkeld. Het SRTS concept heeft wereldwijd daadwerkelijk impact en steeds meer kinderen kunnen doen wat hun ouders en grootouders deden: op de fiets naar school gaan.

De kinderfietsen van Trek zijn ontworpen om naar school en nog verder te fietsen, met Dialed Fit Specific ontwerpen die meegroeien met de jongens en meisjes die op deze fietsen rijden.

Kinderfietsen van Trek bieden zorgeloos plezier en zijn met zorg gebouwd voor een duurzame investering.

Onze technici en de medewerkers van het ontwerpteam hebben de lichaamsafmetingen van honderden kinderen opgemeten, waardoor het Dialed Fit Specific Design™ van het frame wordt verbeterd. Met Dialed Fit Specific onderdelen kunnen wij beter de afmetingen van de fietsen bepalen zodat de fiets beter bij je kind past. Bovendien groeien de fietsen met hen mee. Het resultaat: veiligere kinderfietsen die langer meegaan en waarop altijd met plezier kan worden gereden.

ride+

Het elektrische steuntje in de rug.

Ze zien eruit als een normale fiets maar het geheim zit in het achterwiel. De Ride+ fietsen zijn lichtgewicht hybride fietsen die voorzien zijn van een wrijvingsloze elektromotor die heel compact in het achterwiel is ingebouwd. Je eigen trapenergie wordt gemeten door een sensor en afhankelijk van het gekozen niveau, biedt de motor extra ondersteuning. De eenvoudige bediening maakt de fiets geschikt voor iedereen die een duwtje in de rug nodig heeft. Hoogwaardige techniek zorgt ervoor dat tijdens het afremmen energie wordt teruggewonnen waardoor de actieradius toeneemt. De hoogwaardige Lithium-Ionaccu is fraai weggewerkt onder de bagagedrager en met een volle lading kan ongeveer

L500+™	T400+™	Valencia+™	FX+ WSD™

70 km worden afgelegd (afhankelijk van de omstandigheden). Dat is ruim voldoende voor de gemiddelde wekelijkse ritten. Opladen is door de afneembare accu en via een meegeleverde oplader een fluitje van een cent. Vanaf nu is vermoeidheid, tegenwind of een hoog viaduct geen reden meer om af te stappen.

Uw kracht, plus!

Ride+ is een fiets met een motor en een accu die, eenmaal ingeschakeld, het de rijder mogelijk maakt om verder, sneller en met minder inspanning te trappen. In tegenstelling tot brommers en scooters is er geen gashendel; schakel gewoon de Trek Syn Drive in, bepaal het gewenste ondersteuningsniveau en ga.

Syn Drive Treks geavanceerde elektronische motorbeheersysteem past continu de timing en aandrijvingskracht aan op basis van de trapkracht, weerstand en snelheid. Via een computer op het stuur wordt de levensduur van de accu, het ondersteuningsniveau, de tijd, de snelheid en de afstand bijgehouden. De accu kan verwijderd worden, zodat deze eenvoudig kan worden opgeladen.

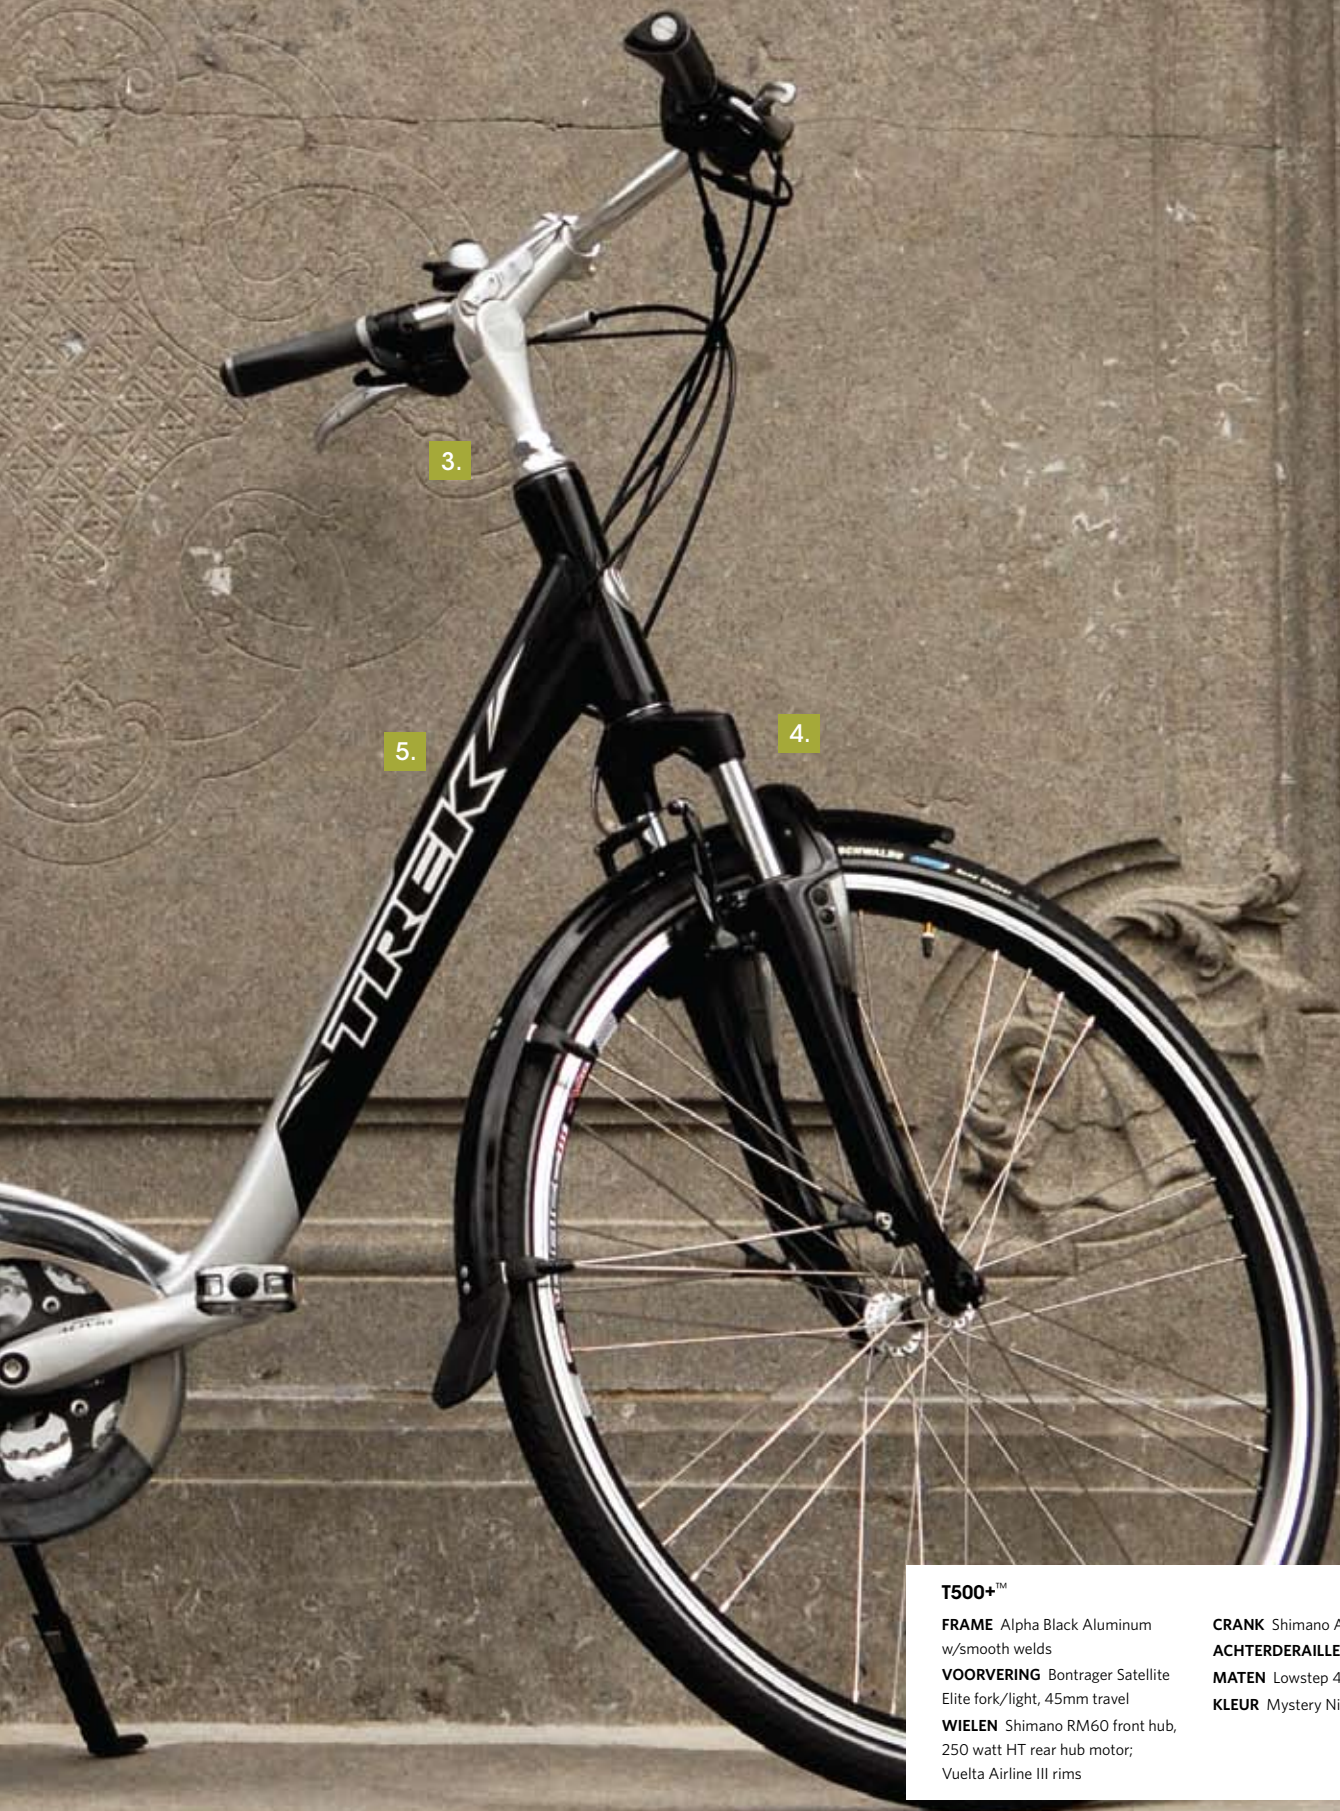

Silent Drive is een hoogwaardige, borstelloze naafmotor die speciaal is ontworpen om frictie van interne onderdelen te voorkomen. Door de soepele, stille rit wordt de energie van de lithium-ion-accu optimaal benut en biedt deze 250 Watt vermogen bij verschillende snelheden, inclusief heuvels op of met een straffe tegenwind.

Regeneratief remmen — vergelijk het met een hybride auto. Als u een heuvel af rijdt, blijft de fiets door middel van regeneratief remmen op een constante snelheid terwijl tegelijkertijd de accu wordt opgeladen. Hierdoor wordt de levensduur van de accu gemaximaliseerd. Tijdens een gemiddelde rit neemt de accucapaciteit tot wel 10 procent toe.

Wees iedereen een trapje voor.

1. **Lichtere, stillere kracht;** de elektrische ondersteuningskit met Trek Syn Drive™ technologie en Silent Drive motor.™
2. **Afneembare batterij;** voor gemakkelijk opladen.
3. **Verstelbare stuurpen;** een eenvoudig te verstellen stuurpen voor de perfecte zitpositie.
4. **Verlichting;** met de innovatieve, geïntegreerde verlichting gaat u veilig op weg.
5. **Frame** voorzien van Hydroformed Technology.

Trekking

Stoere compagnon op lange avontuurlijke tochten.

Avontuur is het toverwoord. Met deze fiets ontdek je de wereld. Maar het is zonde om deze fiets alleen tijdens zomerse ritjes op de vakantiebestemming of voor weekendtrips te gebruiken. En door de brede keuze aan modellen, is er altijd een Trekking-bike die precies past bij jouw ambities. Voor de echte sportievelingen is er zelfs een speciale SL-versie waarbij elke overbodige gram is weggeschaafd ten gunste van jouw prestatievermogen. Natuurlijk zijn de fietsen uit de Trekking-serie uitgerust met een derailleurversnelling, dragers en spatborden. Tenslotte weet je nooit wat je onderweg tegenkomt op een avontuurlijke tocht. Maar dankzij de complete uitrusting, ben je op alles voorbereid en kun je ten volle genieten van de omgeving en de natuur.

1. Verlichting op voorvork en achterdrager om 's avonds veiliger te fietsen.

2. Stevige drager om boodschappentassen of rugzakken mee te nemen.

3. Lichtgewicht, hydroformed aluminium frame voor lange duurritten.
